Legend

Standard-Duty

Designed and manufactured for typical usage and basic applications.

Medium-Duty

Designed and manufactured for harsher usage and tougher applications.

Heavy-Duty

Designed and manufactured for extreme usage and the most demanding applications.

Woods products are proudly made in the USA. As part of a global economy, we work with business partners around the world and export our equipment to international markets. Since 1946, we've been manufacturing in Oregon, Illinois, and supporting the growth of American jobs.

Maintain the quality and performance of your Woods equipment with WoodsCare genuine replacement parts, paint, and lubricants. Available from your authorized Woods dealer.

Find a Woods Dealer

Woods equipment is distributed through a network of authorized dealers. To find your nearest store visit us at woodsequipment.com or call 800-319-6637.

Woods care TM
GENUINE PARTS

Designed for Speed

Woods finish mowers help you maintain a beautiful lawn in less time. You'll look forward to using your equipment with features that focus on your drive to get more done.

- Unique to the industry, our rounded front, tapered-side rear discharge deck allows you to mow with better maneuverability — reducing your trim time and increasing your productivity.
- Spring-loaded idler arms automatically maintain the correct tension on our strong custom-made belts, providing optimum run time.

Precision and Quality

For those who demand a professionally groomed lawn, Woods high-performance finish mowers ensure a clean, crisp, manicured appearance every time.

- The combination of a deep deck, baffling and unique rear discharge design ensures exceptional material distribution and gives you the premium results that make the Woods name synonymous with “cut quality.”
- Manufactured exclusively to Woods' superior standards, heat-treated, alloy steel blades provide maximum performance and precision cutting applications, such as large lawns, parks and sporting fields.
- Cast-iron belt sheaves with taper lock bushings and tapered roller bearings in the spindles offer exceptional strength and performance; standard on RD990X, PRD and commercial TBW models.

RD990X

WOODS

Rear Discharge Mowers

Tubular Caster Arms

And heavy, 4.5-inch-tall deck rail supports increase strength and product life

RDC54

shown with optional chain shielding*

Deep Deck

4.6-inch deck depth, along with baffling and rear discharge design, ensure exceptional material distribution and a higher quality of cut

Standard-Duty

Tractor Range: 15–35 hp

Model

RDC54 Cutting width: 54-inches
RD60 Cutting width: 60-inches
RD72 Cutting width: 72-inches

- Three-point hitch: Limited Cat 1 and 1
- Cutting width covers tractor tire tracks and reduces mowing time
- Rounded front corners and tapered sides improve maneuverability and grass discharge while box-style construction offers superior deck strength
- Blade tip speeds of: 16,200 fpm, 18,030 fpm, and 18,000 fpm

Rear Discharge Mowers

Every rear-mount model in the Woods line-up offers the best features within our full line of finish mowers.

- Designed for 15–75 horsepower tractors
- High performance gearboxes require less maintenance
- Industrial quality, reinforced blade spindle is designed for years of service
- Available in a range of cutting widths from 4.5- to 7.5-feet
- Floating top link helps prevent scalping
- ASAE quick-hitch compatibility ensures faster and easier hook-ups (not available on RDC54)
- Floating lower hitch points allow the mower to follow uneven terrain

Medium-Duty

Tractor Range: 15–40 hp

Models

PRD6000	Cutting width: 60-inches
PRD7200	Cutting width: 72-inches
PRD8400	Cutting width: 84-inches

- Three-point hitch: Cat 1
- Ideal for mowing lawns, sports fields, and parks
- Features a strong, eight-gauge steel deck and a powerful 60 hp gearbox
- Kevlar® belt with clutching cover protects parts and increases lifespan
- Anti-shimmy caster wheel springs reduce shock loads — tubular caster wheel arms add strength

PRD7200
shown with optional chain shielding*

Quick Attach Blades
Exclusive quick attach blades provide ease of service — blades can be changed quickly with only 3/4" wrench.

RD990X

Heavy-Duty RD990X Finish Mower

The Woods RD990X rear discharge finish mower is tough yet versatile enough to move from rough, weedy farmland to commercial lawns and landscapes.

Tractor range: 45–75 hp

Model	
RD990X	Cutting width: 90-inches

- Three-point hitch: Cat 1 and 2
- Blade tip speed: 17,000 fpm
- Free swinging blades
- Deep deck and swinging blades are ideal for rough grass
- Takes down grass and light weeds, and leaves a high grade finish cut behind
- Chain shielding standard

***NOTE:** Standard-Duty and Medium-Duty RD-Series finish mower models pass all applicable safety standards for thrown object and blade contact without chain shielding. However, if these units will be used in areas where the possibility of thrown objects could be hazardous to persons or property, it is strongly recommended that optional chain shielding be used for extra protection.

Turf Batwing® Mowers

Turf Batwing® Mowers

TBW180

Our flexible wing finish mowers deliver Woods proven cutting deck in a three gang configuration mounted to a heavy-duty trailer.

- Carrier bearing on the CV (constant velocity) input driveline provides support, making it easier to attach to the tractor and allowing tighter turns (not available on TBW150C)
- Superior cutting capabilities are combined with contoured wing decks to let you quickly cut large, uneven areas of turf without sacrificing cut quality
- Rounded front, tapered rear deck design allows mowing close to objects without damage
- Round skid rod glides deck bottom over roots and uneven turf — adding strength to the deck skirt
- Standard six-year gearbox limited warranty and three-year spindle warranty (not available on TBW150C)
- Floating hitch design flexes to allow the mower to follow the terrain with less stress and wear on the tractor drawbar. Adjustable to allow better fit on multiple tractor drawbar heights. Standard on the TBW144, TBW180 and TBW204.

Transport Latching System

The transport latching system automatically engages when the decks are raised into transport position. Simply pull the release rope or engage the optional hydraulic latch release to lower the decks into the operating position with minimum effort.

Estate Model

This 12.5-foot mower provides a beautifully finished cut making short work of large lawns. Based on testimonials, the TBW150C could reduce two-days of mowing into as little as four-and-a-half hours.

Tractor range: minimum of 25 hp

Model

TBW150C Cutting width: 12.5-feet

- Blade tip speed: 16,200 fpm
- Decks are designed with “box” construction which adds structural strength
- Three decks mounted to heavy-duty trailer for triple cut capacity; mow up to seven acres per hour at five miles per hour
- Anti-scalp rollers standard

Folds for Storage

With a folded transport width of only 93-inches the TBW150C can fit into a standard 8-foot garage door

TBW150C
shown with optional
chain shielding*

***NOTE:** The TBW150C mower passes all applicable safety standards for thrown objects and blade contact. However, if the unit will be used in areas where the possibility of thrown objects could be hazardous to persons or property, it is strongly recommended that optional chain shielding be used for extra protection.

WOODS

Turf Batwing® Mowers

Commercial Models

Woods commercial Turf Batwing finish mowers are designed for outstanding cut quality and built for a long, durable life.

Tractor range: minimums of 30, 35, and 40 hp

Models

TBW144	Cutting width: 12-feet
TBW180	Cutting width: 15-feet
TBW204	Cutting width: 17-feet

- Blade tip speeds: 18,000 fpm
- Optional mulching kit available on the TBW180 and TBW204; highway light kit and anti-scalp roller options available on all three models
- Ten large caster wheels provide even cut on rough ground

Durable Sheaves, Bushings and Spindles

Cast-iron belt sheaves with taper lock bushings and tapered roller bearings in cast-iron spindles offer exceptional strength and performance. Spindles carry a 3-year warranty.

Automatic Idler

Corrects Belt Tension

Spring loaded idler automatically maintains the correct belt tension for significantly increased belt life.

TBW204

Hydraulic Latch Release

The optional hydraulic cylinder releases the transport lock to lower the decks into mowing position.

Woods Undermount Mowers for Vintage Tractors

Use your vintage tractor to power a finish mower with premium-quality Woods undermounts. For a very low total investment, you'll have one of the greatest mowers going.

- Patented single V-belt drive for smoother operation and low maintenance
- Full contact between belt and center drive spindle for positive action on all blades
- Smooth, reliable mowing power even under heavy loads while protecting both mower and tractor from sudden shock
- Exclusive Woods free-floating suspension lets mower follow uneven terrain and helps prevent unsightly scalping
