B26 (FRONT)

FEATURES

Engine

Tackle the toughest jobs with the B26's rugged 26HP diesel engine. It boasts an enviable combination of high power, high torque rise, low noise, low vibration and cleaner emissions. Easy to start on cold mornings, this high-output, liquid-cooled engine will prove both dependable and durable for years to come.

Slanted Boom and Hood Design

The slanted boom and hood of the B26 improves visibility over the hood. This helps you change attachments and get back to work quickly, and allows increased productivity in tight areas.

Integrated Main Frame

The reinforced integrated main frame of the B26 is performance matched to the loader and backhoe. This means that the structural integrity of the tractor is uncompromisingly sound and built to take on the stresses of repetitive loader and backhoe work.

Four Wheel Drive

Combined with the differential lock for the front axle, the B26's 4WD ensures virtually unstoppable performance under difficult conditions or on varying terrain.

Spark Arrestor

Mounted under the hood, the standard Spark Arrestor muffer ensures that you are safe when working around dry fields or grass.

FEATURES

Deluxe Seat

We've installed more comfortable and ergonomic seats on the B26. These deluxe seats are more cushioned to reduce fatigue, even when working long hours.

Engine Start Switch

We've moved the starter switch to the right side of the operator seat to make it easier to reach when you're operating the loader or the backhoe.
